## REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

As stated on pages 17-18 of Applicant's response dated 6/2/2008, Claims 1, 2, 6-8, 10-12, 15-18, 26-42 and 44-52 define over the prior art rejections of record because both the references of McCormick and Williamson require the cell or tissue sample to be immobilized on a filter using an insert, gel material or adhesive while the instantly claimed combination of method steps preclude immobilization of the cell sample prior to the flow of processing reagents.

As argued on page 19 of Applicant's response dated 6/2/2008, Claims 53, 55-57, 60-79, 81-84 and 86-94 define over the prior art rejections of record because none of the references of McCormick, Williamson and Louder teach or fairly suggest the claimed combination of method steps including the use of a conductive filter support and heating the embedding solution through the thermally conductive filter support.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to WILLIAM H. BEISNER whose telephone number is (571)272-1269. The examiner can normally be reached on Tues. to Fri. and alt. Mon. from 6:15am to 3:45pm.
